John Sherman Casts His Vote for the Bill.

The Upper Chamber Crowded-Tilt Between Wolcott and Carey-The Vote in De-tail-The Chinese Bill-House

WASHINGTON, Oct. 30 .- (By the Associated Press.) This has been a field day in the Senate. No more interest day when the question at issue was a substitute for the Wilson bill to register their triumph.

Before 11 o'clock the galleries were black with people, and a number of foreign representatives looked down from the diplomatic gallery. The scene on the floor was impressive. Nearly every seat was occupied, while a hundred Representatives from the lower House ranged themselves against the wall. The impressive stillness was broken only by the rise and fall of the voices of the speakers as they delivered their final notes of triumph or warn

The Senate and galleries seemed awe stricken. Every one seemed to feel deeply that the result of this great parliamentary struggle was fraught with momentous importance to the country, and that the policy about to be inaugurated was for weal or woe to 67,000,000

of people. Senator Voorhees announced on Saturday that he would call for a final vote on the repeal bill at 2 p.m. today, but as it was known that the bill was still open to amendment, this morning, there was much speculation as to what propositions might be launched at the last moment by the silver men, who had nothing to lose and everything to gain by a sudden onslaught on the re-

The opening indications were not The opening indications were not promising for a vote as early as Senator Voorhees anticipated, as several Western Senators had expressed a desire to speak, and it was 7:28 o'clock tonight before the Senate, after one of the most remarkable parliamentary bat-tles of the generation, passed a bill un-conditionally repealing the purchase clause of the Sherman silver law. The end was reached at the conclusion of a con-tinuous session of fourteen days, after sixty-one days of debate, during which time five volumes of the Congressional twenty million words.

Senate will pass the Chinese extension bill while the House is considering the silver bill. Several Pacific Coast men said that the Senate should amend the bill, as has been suggested, by striking out all amendments, making it simply an extension of six months. A quorum will be needed in the House to pass the amended bill. The California members do not propose to give up what they would gain in extension with amendments which they proposed, and

which the House accepted.

The House Committee on Territories has been busy for several weeks perfecting a bill for the admission of Utah. It is thought that the administration has not wished to see the admission of Territories pressed just now. The fact that the men who will come to the Senate and House from all of the pro-posed new States would be silver men has caused the promoters of the State-

hood movement to pause. In order to get around any such diffi-culty as this, Delegate Joseph of New Mexico has proposed to have the bill admitting his Territory changed so that admission will not become operative until 1895, for Utah, Arizona and New Mexico. It is proposed to grant them double the amount of land granted the last Territories to be admitted. The reason for this is that these grants ore made for the purpose of establishing a fund for various institutions, and it is laimed that the lands which the three Territories now knocking at the door will receive are mostly, if not entirely, arid, and fit for nothing until they have made valuable by a costly system

The last six States admitted received as grants for various State institutions it five hundred thousand acres of land each. The three Territories asking for admission think they will need at least one million acres.

FIFTY-THIRD CONGRESS.

WASHINGTON, Oct. 30 .- (By the Associated Press.) SENATE.—The roll-call showed the presence of fifty-two members when the consideration of the repeal bill was resumed. Senator Hunton of Virginia said that he would vote for unconditional repeal, and then be ready to join his friends in a fight for

Senator Cameron of Pennsylvania said that neither side had made a sug-gestion which, in his opinion, was broad enough. Therefore he had studi-ously avoided voting for or against the amendments offered. There could be but one solution, the free coinage of the American silver product was es-sential to our prosperity. The Senate

ould not, with self-respect, pass such measure as this. It was argued in sup-port of this bill that repeal would force Europe to join us in an agreement for the use of silver. That was cutting off

the use of silver. That was cutting off the American market for silver, and would throw 50,000,000 ounces per year on the European market in the hope of breaking down the market price.

"With a deficit of several million dollars per month in the treasury," he said, "we would do well if we could keep \$50,000,000 in gold in the treasury. We are wasting our silver, our gold and our credit."

He would like to have this bill re-

He would like to have this bill re ferred to a select committee with in-structions to report on further meas-ures, to safely carry into effect the

legislation postponed some time ago by Senator Morgan of Alabama. Senator Morgan of Alabama ad-dressed the Senate. The situation, he said, seemed to him a very lamentable one, of which he could speak only with pain, and which he could contem-plate only with serious acrescherictors. plate only with serious apprehensions for the future welfare of the country. Senator Morgan raid the passage of the bill would be an irrevocable surrender to the demands of most insolent overbearing corporations. He read slowly, and with great emphasis, these sentences from Senator Gorman's speech of Saturday: "We were com-pelled to take the terms offered by the Senator from Ohio. He held the key of the situation. You have dictated th

rms to us."
"I thank Almighty God," said Mr. Morgan, impressively, "that the Senator from Ohlo has never had the power to dictate terms to me as a day in the Senate. No more interest of the President, to a committee or a minority of Democrats on this side, but he cannot dictate to me." Again quotpractically decided, and the victors are ing from Senator Gorman's speech, Mr. simply awaiting the vote in the House on the adoption of the Voorhees bill as down conditions to the Democracy said the speaker, contemptuously. What is the Democratic party worth to itself, or to the country, or to possaid

terity, when the Senator from Ohio has the key to the situation, and can lay down conditions to it? What is your majority here worth (addressing Democratic Senators) thus trifled with thus deceived, thus overrun and finally handed over to the tender mercies of he Senator from Ohio?"

Senator Morgan said he had signed the proposed compromise, and had done so in order to have peace and fraternity in the Democratic party. "Commit sui cide," said he, with much bitterness, "because you cannot get a chance to live on fair and even terms with your friends and neighbors."

He concluded his remarks at 2:40 clock. He left the subject, he said, with the knowledge that the die was cast. The Senate, House and the Presi-dent had determined that the pending measures should preyed. There was nothing now to look t, so far as he could see, but some 'ague promises made in the Senate, which were entirely incapable of being realized.

Senator Vest followed Mr. Morgan.

He expressed sympathy with the people of the silver States, and said that no Czar or Kaiser would desolate an insurrectionary province as Congress was about to desolate the silver States of the West

Senator Cockrell of Missouri said that at the last election the tariff question and not the financial question was pressed to the front and the Democratic party secured a victory. Now that the election was over, the tariff was lost sight of and the senior Senator from sight of and the senior Senator from New York (Mr. Hill) was beheld pitch-ing to the front on the silver question. Mr. Cockrell reviewed at great length the history of the repeal bill in the House and Senate. The bill was to pass, said he; it had been taken out of the hands of the Democracy and the Republican Senators had to be con-sulted before anything could be done time five volumes of the Congressional Record have been filled with speeches amounting in the aggregate to about twenty million words.

The Republican Party would be infinitely more responsible for unconditional repeal than the Democratic party. If the repeal of the Sherman law failed to restore prosperity the Republican party must bear the responsibility. Senator Carey of Wyoming defended

his position on the repeal bill. He then referred to the speech of Senate cotton Saturday, in which the latter said he was advised that Wyoming desired repeal and the Senator from Minnesota (Mr. Washburne) had made a proffer of the vote of the Senator from wyoming, and his authority was not questioned. Mr. Carey resented the statement, and made some sharp perstatement, and made some sharp perstatement. sonal references to Mr. Wolcott. In con-clusion, Mr. Carey said that he should vote for unconditional repeal, although he favored a compromise

Senator Wolcott replied in an equally caustic manner. He read a statement made some time ago in, which Mr. Washburne stated that Mr. Carey had told him that he would vote for unconditional repeal. "At the time that statement was made," said Senator Wolcott, "the Senator from Wyoming sat quietly in his seat and from that day until this has seen fit to give no utterance upon the subject. Here ap-parently stood this new, young com-monwealth, with its people unanimously in favor of free and unlimited coin-age of silver, represented in this body by a Senator who not only said no word, but permitted a Senator from an adjoining State to define his position. If the Senator from Wyoming is con-tent with his position I have no objec-tion to make; I leave him to his constituents.'

Senator Carey having said in his remarks that Mr. Wolcott strove after ef-fect, changed costume with each speech, etc., the latter replied hotly: "There are some men to whom clean linen is an offense." He regretted that the Sen-ator from Wyoming was one of them. He apologized to the Senate for stoop-ing to such personal allusion, and said that there is a Spanish proverb that fits the case: "'Tis a waste of lather to shave an ass."

This provoked great laughter in the galleries, and the Vice-President ad-monished the occupants. Senator Carey replied in-a warm manner, and charged Mr. Wolcott with abandoning his party Mr. Wolcott with abandoning his party in the last campaign, and said the trouble with Mr. Wolcott and his people had been that they attempted to interfere in the affairs of his (Carey's) people instead of looking after their own. He (Carey had a letter from a reputable citizen of Colorado, saying that if he voted against free colnage the influence and money of that State would be used to ruin him. Mr. Carey from a first control of the said of the would be used to ruin him. Mr. Carey

Dead Mayor.

CHICAGO, Oct. 30 .- (By the Associ-Press.) The last day of the World's Fair opened with beautiful weather, but a pall hung over the great exposition, and its myriad flags floated at half-staff. Instead of the scene of dazzling splendor that was to have crowned a day of brilliancy in speech and song, only necessary lights will burn tonight, and the White City will be shrouded in darkness at an earlier hour than since its opening.

With the tragic death of Mayor Harrison, the life and gavety of the exposition went out forever. Instead of a festival of oratory and music, which was to have filled in the afternoon, memorial services were held in Festival Hall, at which tributes were paid to the memory of Chicago's most charac teristic Chicagoan by the World's Fair officials, national and local, and by the representatives of assembled nations. The great audience, some of whom had come from far distant States to as-sist at the rejdicings over the success-ful ending of the great exhibition, fill-

ing every seat and occupying every foot of standing room, were hushed. President Palmer of the National Commission presided. Rev. Dr. Burrows delivered a prayer and read an address prepared by Presi-dent Higinbotham of the fair directory. After Mr. Higinbotham's speech, appropriate resoultions concerning the taking off of Mayor Harrison, and paying to his memory a tribute of respect and admiration, were adopted. En-grossed copies will be sent to the family of the deceased.

Then President Thomas W. Palmer

of the National Commission, announced that, in view of the sad circumstance which brought the assemblage together, the closing of the fair would be marked only by a salute of cannon and the hauling down of flaks. When that took place he declared, in obedience to act of Congress, that the exposition would be officially closed.

The total paid attendance at the fair from its opening to its close has been 21,458,910. The total free admissions, which include employees of all kinds, exhibitors, concessionaries, etc., has been 5,953,818. Today's admissions were 242,575, of which 208,173 were paid.

rendergast Had Been Inditing Effusions to Senators at the Capital.

WASHINGTON, Oct. 30.—(By the Asociated Press.) Prendergast's bulociated Press.) Prendergast's bul-

lets, which took the life of Mayor Carter Harrison, might have found a lodgment in the heart of a United States Senator or even the President of the United States. For fully two weeks before the murder of Chicago's Mayor the assassin had been directing messages through the mails to at least one United States. Senator, which indicated that his mind was intensely wrought up against President Cleveland. The burden of all these communications was the sil yer question.

Senator Dubois of Idaho and others were recipients of communication which have been received almost daily since October 9. Writing on October 2 he said: "Repeal is effectually beaten unless the cloture is resorted to to stifle the voice of the people, and, if this dishonorable, unconstitutional, un usual course is resorted to the peace of the nation is risked, and no Senator who votes for the cloture can justify his course from a patriotic standpoint. On October-24 he wrote: "I notice awavering in the ranks of silver's enemies. Your side is now the strongest. If you are determined, firm and patient, you can win. The best thing to do is to fight it out. Look out for artifices on the part of your opponents. Remember that the strongest and most intelligent leadership is on the part of intelligent leadership is on the part of the silverite side. Grover Cleveland is impotent. The cry for repeal is sim-ply a whim of his. Is the United States Senate going to yield to an irrespon-

Senate going to yield to an irresponsible President's whim?"

He wrote as follows on October 26: "Hold the fort. The President was about to give up the fight, but certain persons like John Sherman and Banker Benedick of New York reanimated him. If you hold out you are sure to win. They dare not attempt the cloture. Hill of New York has no influence in the Senate, owing to his unerce in the Senate, owing to his unence in the Senate, owing to his un-savory record in New York. The Pres-ident has become tired and will give up in despair, if you delay the vote as long as possible, by every means at your command." He adds a postscript to this note in which he says: "I have done and shall continue to do my

When a reporter for the Associated Press approached him on the subject of the assassination he gave monosyl-labic, dogged replies at first, but finally repeated his former assertion that the reason for the deed was that the Mayor had deceived him and betrayed him, and that he took that means of getting even, declaring that he was justfied in so doing.

A special meeting of the members of the City Council was held this morning, at which resolutions were passed calling for a special memorial meeting, providing that the body lie in state in the City Hall from Tuesday morning till Wednesday morning, and inviting all civic and military bodies of the city, and the citizens generally, to attend the funeral services.

Prendergast was indicted by the grand jury today, for murder. When told of the jury's action, the prisoner merely took the cigar out of his mouth and said: "Well."

Gould asked him to sit down until he got the money from a safe. The crank sat down and Gould stepped to the side door and summoned Detective Clark, who quickly took the young man to police headquarters. Gould had been prepared for his visitor, who had called at noon today, and, being told by the clerk that Gould was out, said he would return by 2 o'clock, when he wanted a tip on the market or \$5000.

At police headquarters the crank sald that his name was Mongolia Andrews, and that he was 24 years old. SAN FRANCISCO, Oct. 31.—(By the Associated Press.) The schooner Vik-ing arrived tonight with the two sailors who were marooned on Clippertor Island in May last. Clipperton Island is a tiny speck in the South Pacific, and is covered with a guano deposit. A company was organized to the deposit, and the schooner Compect

left for the island with a force of men The schooner was forced to return to San Francisco for supplies and ma-chinery, but in order to hold the island left two sailors there with provisions for three months. The island is a deso-late spot, and the sailors had misgivthat the schooner would not be back in three months, so one of them sent a letter to a friend in this city when the Compeer sailed, telling of their fears of being deserted. The friend was asked to wait three months. and then, if no vessel was sent to take them off, he was to make the letter

TRAINED FOR WAR ONLY.

The Zulus Have for Generations Had No Other Object in Life.

Mr. Haggard's tales have given us a highly colored, but by no means overcolored, view of the Zulus and their military prowess. According to the New York Tribune it would be difficult for any one to paint them in too glowing colors. They are the Spartans of Africa. For generations they have lived only for war. They have been bred and fed and trained and educated solely for battle. In physique they they surpass all other black men. In discipline they vie with the armies of Europe. In fierceness and courage they rank with the best warriors of any land or age. The romancer's Galaziand Umslopogaas are not inventions. THE EAST SIDE.

A Young Girl in a Sad Plight-Street Im-

A sixteen-year-old girl named Annie Woods is lying in a precarious condition at the County Hospital, where she was taken on Sunday from "Mother" Brown's place, out on the reservoir road to Pasadena. The girl is one of six daughters whose home is with their parents, at Alhambra. The family is very poor, in fact, if all accounts be true, it daughters whose home is with their parents, at Alhambra. The family is very poor, in fact, if all accounts be true, it is a case deserving of aid at the hands of the Board of Supervisors. The older girls are the main support of the family, the father not being able to do much, and the mother practically nothing. A month ago the girl Annie was forced by her father to leave home in search of work, and, as she was not nearth of work, and, as she was not nearth of work, and, as she was not nearth of finding her sick and weary of life at the resort mentioned. Through the assistance of Officer Spencer, Mrs. Woods removed the girl to the hospital, where she will be cared for until again strong and well. It is claimed that she is not a bad girl, but merely an "unfortunate." Some ten or twelve months ago she figured in a story at Alhamshra, in which it was claimed that she was criminally assaulted by a young man of standing, but his influence was such that the affair was hushed up. She stoutly maintained, however, that is she had been compelled by force and threats to yield to the demands of her assailant. About two months ago she gave birth to a child, and then the sensation was revived, but her father, either through pride or from fear of the young man, would not let her remain at home, but sent her adrift with the result noted. It is not known just how long the girl was at the Brown place, but the chances are that she was therelong enough to overcome her natural tendencies toward the right, and add her to the long list of social walfs.

The electric company yesterday had men at work with teams, hauling gravel and spreading it on Hawkins street, along the line of the recently torn up track. WISDOM ABOUT WRINKLES.

It is Far Easier to Avoid Them Than to Cure

(New York Commercial Advertiser:) (New York Commercial Advertiser:)
"Don't try to cure wrinkles—avoid
them," was the practical piece of advice that dropped from the lips of a
woman. The speaker passed on with
her friend, but left behind one who
meditated long and thoughtfully on
what she had just heard. It is true
wrinkles are in themselves incurable wrinkles are in themselves incurable save by the gentle process of nature known as "fattening up," which so often comes at the age when wrinkles commence. As long as matter as supreme wrinkles will be subjugated. But there is a good deal in avoiding the tell-tale lines. Care of the eyes and facial repose are the two things which count. Chewing gum is responsible for many wrinkles in American faces, as is emotion. People who make faces for a living, such as clowns and comedians, people who squint and peocomedians, people who squint and people who laugh and chatter perpetually, all have prematurely worn and haggard faces. Therefore the great preventive

As for the eyes, just notice how much earlier in life the weak-eyed woman wrinkles than does her keen-visioned sister. Trying to face the intensity of the sunlight or to sew or read by arti-ficial light strains the eyes until the facial muscles as well as the optic nerves are taxed to the utmost. In winter the refracted sunlight from the snow or ice underfoot and in summer the blinding glare from the sunshine on the sea and the beach are influences as prolific as the unrelenting class of weak-eyed people who take proper care of their faces. They save their eyes. If they are too vain to wear glasses they don't try to read under trying circumstances. In public places the fashionables make little use places the fashionables make little use of opera glasses and no use of librettos, programmes, catalogues and prayer books. You will never catch the society beauty burning holes in her eyes to study a stage artist. But the staple article is a fan, and women who know its real value, aside from the decorative, eat, sleep, read and live with it is tive, eat, sleep, read and live with it in hand. It is this sort of protection for the eyes that retards the accumulation of wrinkles and preserves the sight. The early adoption and continuous use of broad-brimmed hats for weak-eyed girls is a timely preventative timely crow's toes and wrinkles.

A Shrewd but Sleepy Dog.

(Harper's Young People:) A dog, who usually accompanied his master on evening visits to the house of a friend fell asleep there one night and was forgotten. Long after his owner had gone the sleepy fellow awoke to find himself alone and in the dark. The door was shut and locked and the family asleep in the other rooms, so his whining was not noticed. Though the windows were closed, one blind was open and the dog, determiend to go home, leaped through the window, breaking glass and sash as he went.

When the dog's owner prepared to leave his hat and cane were missing. A search showed not only the missing articles, but something else. The cane and hat had been taken from the rack and lay on the floor, while by their side rested the sleeping dog. But one paw was in the hat and the other across the cane. He did not mean to be left again, and he wasn't.

Senator Jones of Nevada resumed his speech begun several days ago. The demonetization of silver was but a part of the scheme of the banks of the great money centers, who also wanted a monopoly of the issue of money. They will now demand the issue of \$200,000,000 of bonds, believing the distress of the country will become so great as the result of the contraction that the gov rnment will be unable to resist. In relieve the currency famine, the gov ernment should issue greenbacks. In conclusion, Mr. Jones said this was not the doom of silver, as some imagine; i

The exhibits of letters and circulars sent out by the officers of the American Protective Association are

attached to the memorial. They all breathe the same hostility to Roman Catholics and call upon "all true and loyal Protestants" to vote for Mr. Lin-

The alleged oaths which accompany memorial are very binding. No. is secretive, in which the candidate de clares he is not a spy of any theological institution, and especially of the Catholic Church. Among other oaths, No. 3, which is taken on a dagger, binds the candidate to secrecy, commits him to support the government, makes it oblig-atory to keep church and State sepa-rate, and renounces all foreign powers.

In No. 4 the candidates swear war-fare against ignorance and fanaticism, and to use their utmost power to strike the shackles and chains of blind obe dience to the Roman Catholic Church from the hampered and burdened conscience and the priest-ridden and church-oppressed people. This oath goes on at great length against Catholics, and, in closing, takes a political turn, the candidate swearing that he will not countenance the nomination in any caucus or convention of a Roman Catholic for any office in the gift of the American people, and will vote only for a Protestant. Should there be two Catholics for the same office, he will erase their names from the ticket.

The remainder of the oaths are elaborations of this, binding the candidate to do everything in his power to keep the Catholics out of public office, oppose all their efforts to obtain control of the schools, etc. up as follows: "I denounce the Pope, his priests and emissaries, and the dia-bolical work of the Roman Catholic Church and its Pope. Amen, amen.

BRITAIN HOPEFUL.

If Cleveland Will but Continue Firm the Robber Tariff Goes. LONDON, Oct. 30.—(By Cable and As-oclated Press.) The Standard, commenting on the passage of the repeal bill, says that a weaker man than Cleveland would have been beaten, owing to the division of opinion in the United States. The defeat of the silver men is the first step in the return to better habits in many things besides currency. If Cleveland can accomplish a reduction in the tariff he will stand as the greatest administrator of the United States in the present generation. Without a reformed tariff reform in currency will do no permanent good.

The Times says that the victory shows the firmness and courage of Cleveland, and hopes that repeal will

estore monetary stability. The Daily News says that Cleveland's shrewdness and sagacity have won a decisive victory for honest money and common sense. It expects the McKincommon sense. It expects the McKin-ley tariff law to go the same way as the

THE SEIGNIORAGE.

Secretary Carlisle Estimates It Will Be \$54,431,080 November 1. WASHINGTON, Oct. 30.—(By the Asociated Press.) Senator Sherman has received from Secretary Carlisle a reply to a letter of his concerning the seigniorage now in the treasury. The Secretary says that of treasury notes is sued under the Sherman act \$52,395,840 have, upon the demand of the holders, been redeemed in gold, and \$2,224,192 in silver dollars.

The Secretary's letter shows the seigniorage in the treasury carried under the Sherman act amounts to \$6,976. der the Sherman act amounts to \$6,976, 198. The silver bullion on hand on October 1, amounts to 137,666,257 fine ounces, costing \$124,651,428. With the probable purchases of October Secretary Carlisle thinks there will be 139,666,257 ounces of silver bullion in the treasury on November 1, the cost of which will be \$125,888,929, and the coinage value, \$180,322,008, giving a seignlorage of \$54,431,080.

Uhl is Nominated.

WASHINGTON, Oct. 30.—The President has nominated E. F. Uhl of Michigan for Assistant Secretary of State.

An inspection of the field staff and An inspection of the field staff and band and Co.s A, C and F of the Seventh Regiment, N.G.C., was held last night at the Armory, Brig.-Gen. C. C. Allen, Adjutant-General of the State, being present. More than one hundred men had turned out, and in full uniform, including white gloves, they presented a fine appearnce. In making the inspection Brig.-Gen. Allen was accompanied by Brig.-Gen. E. P. Johnson, commander of the First Brigade, Ideut.-Col. L. S. Butler, assistant adjutations. Lieut-Col. L. S. Butler, assistant adjut-ant-general First Brigade, Capt. Hal-pin of Co. G. Anaheim; Capt. Fernold of Co. E. Santa Paula, and Col. W. G.

Shreiber.
The boys were looked over sharply and their arms and uniforms were examined with a critical eye. After this had been done Co.s A, F and C, respectively, each gave an exhibition drill in marching and also in the manual of

Burglar Captured.

A colored burglar, who gave his name as Dick Williams, was arrested yesterday morning by Detectives Ben-son and Marsh. The man stole a large quantity of clothing from a second-hand store on Los Angeles street, nea-First street, Saturday night. Wher picked up on the street yesterday, he picked up on the street yesterday, he was wearing a suit and overcoat of the clothes he had stolen. A number of pieces of the stolen goods were found at his room. The man's true name is said to be Dick Price.

A Formidable Job.

"James," said Mrs. Swizzles, sternly,
"James, why did you come home at 2
o'clock this morning?"

"I was figuring totals on your dressmaker's bills, my love," said Mr. Swizzles, with emphasis, while the sweet
calm of home became accentuated by a
deeper silence.

PROCEEDINGS OF THE IRRIGATION CONGRESS.

SPECIAL ANNOUNCEMENT.
On Sunday, the 15th inst., The Times reprinted in full the proceedings of the Irrigation Congress as reported the Irrigation Congress as reported. the Irrigation Congress as reported and published from day to day during its sessions, gathering the whole Into a single issue, convenient for reference, and in a shape suited for transmission by mail to every quarter of the globe. This special sheet, which comprises twelve pages, also contains the valuable preliminary matter upon trigation which appeared in our issue

of October 4, 1893. The paper also contains many spetial advertisements describing lands and irrigation machinery for sale, and various business opportunities. Delegates, citizens, news dealers, commercial bodies and all others interested in this important matter, are requested to send in their orders without delay. Price, 5 cents per copy. Twenty copies postage paid, \$1, except to newsdealers, who will be given their regular rates.

Circulate the Irrigation Edition of The Question of Immigration. Since the question of Chinese immi-gration has been before the people, renewed attention has been called to the subject of immigration to our Eastern shores. It has commenced to dawn upon thinking men that this promiscupus European immigration is in some respects more dangerous to the re-public than that which has come to us from Asia. The lower grades of immigrants who are now arriving on the Atlantic Coast in such large numbers belong to a different class from those who used to form the main bulk of our immigration. Such immigrants as we used to receive from Europe were mostly of the hardy, industrious Bort, who came with their families and small belongings to reclaim the great prairies of the West and the virgin forests of the Northwest. They came to build up homes for themselves and their descendants, where they should be free from the despotism of their native countries. This is no longer the case. The human cargoes that are now unloaded upon our shores are largely drawn from the prisons and poorhouse of the Old World. It is not mere competition in labor that the American workingman has to fear from such immigrants. If this stream is allowed to continue unchecked, there will soon be little to choose between conditions which prevail here and in the Old World. Indeed, as far as the question of labor goes there is already no very great distinction between the "sweater shops of Chicago and New York and those in Berlin and London. But the trouble is wider and deeper than this. Accompanying the competition in labor comes a deplorable decrease in moral-Ity and a marked lowering in the standard of social life. Then again,

ubdue such a mass of ignorance, intolerance and crime. This question of unrestricted immigration from the Old World is very properly receiving the closest attention of those who study the social problems of the times. Many strong articles upon the subject have been published during the past few months in our leading Eastern journals and magazines, in which the writers express views that a few years ago would have been considered extreme and exaggerated, but which now meet with general approval from our people. Among such recent articles is one by Vernon R. Andrew in the American Journal of Politics for October, the closing paragraphs of which are worth quoting

these same people who have come to

this country to escape from despotism

deavor to fly in the face of this free

government and endeavor to introduce

here the horrors of anarchy, which is

the worst kind of despotism that the

world has ever known. Universal suf-

trage gives these people a power to

which politicians bow, while our schools

will soon find themselves powerless to

"What though our land today would accommodate a few millions of people shall we therefore welcome to our shores anything that will fill a space and eat an extra loaf of bread? Is it and eat an extra loaf of bread? Is it so necessary that our country should be populated to its very extreme limit that we must import paupers and criminals from abroad? Is our happiness not to be complete until we are able to rejoice over the fact that every foot of territory we possess is fully occupied, and that we have a few citizens to spare?

pied, and that we have a few citizens to spare?

"Let us rejoice that we live in a land which is still able to give its children a home. Let us rejoice that we live in a land which is still able to give its children a home. Let us rejoice that we live in a land which is not so densely populated, and where the struggle for existence is not so intense that the greatest ear wrong a parent can do his child its to bring it into existence. It is the quality and not the quantity of a nation's citizens which constitutes its true greatness.

"This is not a question in the decision of which we may allow ourselves to be guided by sentiment or feelings of sympathy. It is a question of national prespect, it is he desired to see no legislation in place of the Sherman law. It is, however, due to Mr. Cleveland to credit him with his own declarations in this regard, which have been in favor of promise. I can establish a motive.

both silver and gold. We shall now have an opportunity to ascertain how much truth there is in these charges, and whether, if they are true, the administration Democrats will follow their leader-or rather their master-to the extreme of mono-metallism. If they do so they will find that they have run their party into a swamp from which it will be long in extricating

Congress should clearly understand that the repeal of the Sherman law was urged by many who are strongly opposed to mono-metallism. They de sired that repeal in order that the way might be cleared for more satisfactory legislation. The repeal was a negative action. Now let us have some positive work. Let us have a law that will provide for the establishment of a parity between the gold, silver and paper money of the United States, so that dollar is a dollar upon whatever material the stamp of the government is

Nothing less than this will or should satisfy the people.

Senator Sherman's proposed bond bill, to increase the gold reserve by \$100,-000,000 more, will be in order as soon as the House shall have passed the repeal bill, which it is expected to do very promptly.

Among those Californians who have soon have to face this question of unnot studied the question, there is a dis restricted immigration from Europe. It is a problem with which the Republican position to class the Japanese and the Chinese in one category. This is quite erroneous. There is a wide difference between the people of the two nations. that party should not fail to do this, if It purposes to continue the system of While the Chinese cling to their traditions and customs, the Japanese are anxious to pattern after Europe and the United States. The progress which has been made in Japan for the last quarter of a century is truly remarkable The government, the educational system and the press will, in some respects, compare favorably with anything that can be found in other counbor, as long as that labor itself is let compare favorably with anyinto the country without restriction, tries which are considered far more civilized. Nor do the Japanese show that disposition which is manifested by Chinamen to ignore the laws of the and threatening, if not checked in time, United States. This has recently been shown in San Francisco, where a Japtablished by our fathers, who, when anese society has been formed to as tions to find a refuge here, never had. sist the authorities in suppressing the mportation of Japanese girls for purposes of prostitution. The Japs are a very different people from the Chinese, and it is not fair to them to class them under the same head.

> A lady of culture has astonished the San Diegans by appearing on the streets in a Greek costume, minus shoes and stockings, or even the classical sandals. The Greek costume, while very beautiful, is scarcely adapted to the breezy coast of the Pacific, and is not likely to become generally popular. As to going barefooted, that has become quite a fad of late among health seekers in Europe. The cure has been found very efficacious in cases of severe headaches and nervous diseases. It is not likely, however, that many will have the courage to adopt this radical costume in our cities. It has been said that even in this decollette age the feet is about the last portion of the body woman will place on exhibition. By the way, it is mentioned that the lady question has very small and pretty

It is pointed out that the possession of the Hawaiian Islands and the Nicaragua Canal by the British would complete an English chain around the United States, extending from Newfoundland through the Bermudas, the British West Indian Islands, the Nicaragua Canal and the Hawaiian Islands British Columbia. It is not, however, at all likely that Great Britain will be permitted to control either the canal or the islands. Probably a United States protectorate of both the canal and the islands would be the most satisfactory solution of the prob-

prepared their house, corner of Figureroa and Twentieth streets, for occupancy. After the burning of Mr. Medill's house, at Altadena, nearly two years ago he put in a new foundation, but did not rebuild, having by that time decided that a location in the city would best suit the requirements of himself and family.

Mr. Medill left Chicago on the 23d inst., and only learned of the assassination of Mayor Harrison after arriving on this side. In conversation yesterday with a Times representative, he expressed the common Chicago feeling of shame and humiliation over the shocking crime by which his successor in office was taken off. Mr. Medill knew Carter H. Harrison well, and, though strongly opposed to his political principles and official methods, was not on unfriendly terms with him personally. He regarded the dead man as a strong, audacious character, with a vaulting ambition, which did not stop short of the Presidency; and, in Jurthering his political ends, he freely resorted to the tactics of the demagogue to catch the votes of the proletariat.

Councilman Campbell moved that the Street Superintendent remove three gum trees on the sidewalk of Cummings street, between First and Second streets, as the same obstruct the sidewalk and also the electric light. Adopted.

Councilman Nickell moved that the City Engineer be directed to prepare and present the necessary ordinance of intention for the opening and extension of Darwin avenue to Doullard street, the district of assessment to be furnished by the Board of Public Works. Adopted.

ENGINEERING QUESTIONS.

ENGINEERING QUESTIONS. The following report was presented by the City Engineer.
"In the matter of the petition from J.

G. Whittaker and others, asking for protection against the waters of the Arroyo Seco below Pasadena-avenue bridge, I would recommend that honorable body officially define th honorable body officially define the bed of said Arroyo Seco and then construct a levee on the said arroyo. The levee could consist of brush and stone, faced with barbed wires strung on the water side of the same. The pile bridges of the Terminal and Santa Fe railways should be replaced with bridges of

with barbed wires strung on the water side of the same. The pile bridges of the Terminal and Santa Fe railways should be replaced with bridges of longer span, so as to offer less obstruction to the stream. As they stand at present the debris lodged around the piles of the bridges should be removed."

The engineer was instructed to make the necessary map and survey defining the official bed.

"At the request of the member from the Second Ward I report herewith upon an additional petition of property-owners for the grading, etc., of Belmont avenue from Temple street to Bellevue avenue. This, with a petition reported upon on October 23, 1893, gives petitioners a majority 'between the points where the grade has been changed upon said street. I, therefore, present herewith an ordinance of intention to grade, gravel curb and sidewalk with cement and construct a sewer upon Belmont avenue, between Temple street and Bellevue avenue." Adopted.

"In the matter of the protest of H. S. Fudickar and others against the regrading of Temple and other streets, I find that this, taken with other protests which have been referred to me from time to time, represents a majority of 9289 feet of the frontage to be assessed to pay the expenses of said regrading."

It was explained that this was not a legal protest, but merely an expression of the sentiment of the property-owners interested. Councilman Innes said it was a very important matter, and he would like to have it thoroughly discussed. It was for the Council to decide what would be done.

The matter was referred to the committee of the whole.

"In the matter of the petition from P. R. Bellman and others, asking for a change of grade on Burlington avenue, from Ocean View avenue to Arnold street. I find that the petition, with the one from E. L. Betts, reported on by me October 9 last, contains a majority of the frontage which would be effected by said change of grade, and, therefore, your honorable body has furisdiction in the matter. I, therefore, present an ordinance of intent

change and establish the grade of Burlington avenue, from Ocean View avenue to Arnold street, and fixing the district of assessment." Adopted.
"In regard to specifications No. 5 for graveled streets, referred to me to amend so as to provide that the gravel shall not contain any stone larger than a two-lnch cube, I find that said change is already incorporated in said specifications." Filed.

At this juncture the Council took a recess till afternbon.

"Ordinance of intention to grade, gravel and construct a cement curb and sidewalk on Pasadena avenue, from the north line of the Arroyo Seco

and sidewalk on Pasadena avenue, from the north line of the Arroyo Seco bridge to the city limits." Laid over for four weeks.

"In regard to the proposed paving of Commercial street, from Alameda street thirty feet west, I do not believe that the intersection of Commercial and Alameda streets should be included in said work, for the reason that Alameda street has been paved to the official grade, excepting a portion of said intersection, which, to avoid a jog between the two pavements, was made to conform with the pavement of Commercial street, and upon consulting with the City Attorney he gave me, as his opinion, 'that said intersection having been accepted by the city, the cost of the work done upon it cannot be again assessed on the property-owners.' Adopted, and the clerk instructed to readvertise for bids.

President Teed moved that the Street Superintendent allow no gravel to be taken away from the street where the sewer is being constructed on Twenty-third street, between Flower street and Grand avenue, but have the same spread over said street, between said points, by his force. Adopted.

An ordinance of intention to construct a sidewalk on the west side of Pasadena avenue, from Wells street to Koster street, was passed.

ALISO STREET PAVING.

ALISO STREET PAVING. The Board of Public Works presented

the following supplemental report:
"In the matter of the proposals the improvement of Aliso street, be tween Alameda and Keller streets, w recommend that the bid of the Bitum ous Lime Rock Paving and Improve nous Lime Rock Paving and Improve-ment Company be accepted at the fol-lowing prices: (The prices given were the same as those shown in the list of bids in the report of the morning ses-sion, above given.) The Tax and License Collector presented a communication in which he
suggested the amendment of the ordinance in regard to collection of city
taxes, so that the day of delinquency
of the first payment shall be fixed
permanently on the third Monday of
November of each year. This would
make the date the same as that of the
county, and would thus avoid confusion. Referred to the Finance Committee.

MORE MOTIONS.

Councilman Nickell moved that the Street Superintendent be directed to road up Mozart street west of Chestnut street, and put it in a passable conditions.

as follows:

"We, your special committee to whom was referred the motion made by Mr. Strohm, asking that a committee be appointed to revise the plumbing or dinance, would report that it is the opinion of this committee that the present of the plumbing or dinance, would report that it is the opinion of this committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom the plumbing or dinance, would report that it is the opinion of this committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee to whom was referred the motion made by Mr. Strohm, asking that a committee the appointed to revise the plumbing or dinance, would report that it is the opinion of this committee the

would recommend that the City Attorney be directed to present the necessary ordinance repealing the existing ordinance. We would also recommend that the president of the Council appoint a special committee of three in connection with the Superintendent of Buildings and Board of Health for the purpose of framing a new plumbing or-dinance. Adopted. (The members of the new special committee were not named yesterday.)

BOYLE HEIGHTS RAILWAY. The portion of the report of the Board of Public Works in reference Board of Public Works in reference to the advertising for bids for a street railway franchise for certain streets on Boyle Heights as presented at the morning session and referred to the City Attorney, was now, on motion, taken out of the hands of that official, and was adopted after being amended by striking out the words referring to an electro-vapor moter.

The City Attorney reported as follows:

"As directed by you, I have prepared and present an ordinance granting property-owners permission to improve a portion of Vine street by private contract." Adopted.

"I have changed the draft of the ordinance-for the opening of Castelar street to meet the recommendations of the Board of Public Works, and present the same herewith." Adopted.

"In the ordinance heretofore passed for the taking of a certain piece of land on East First street, near Vine, for the widening of said street at that point there was a mistake in the description of land of about six inches, and to cure this mistake I have prepared and present herewith a new ordinance for the widening of said street at said point." Adopted.

"As directed by you, I have prepared and present herewith an ordinance extending the time for the payment of first half of municipal taxes to November 27." Adopted.

"In the matter of an ordinance adopting map of Sunset boulevard, no such ordinance is necessary at this time, and, in my opinion, should not be passed until the street is actually opened." Filed.

Councilman Pessell moved that the Street Superintendent be requested to repair the gutters oposite the Macystreet school. Adopted.

Councilman Campbell moved that the Street Superintendent be requested to repair the gutter opposite the Macystreet schoolhouse. Adopted.

The Sewer Committee reported recommending that the bid of John Gennelly for the construction of a sewer on Union avenue between First and Temple streets for \$1.18 per lineal foot for the sewer complete be accepted. Adopted.

Adopted.

Also that the Sewer Committee empowered to extend the Solano-avenue sewer to a connection with the Buena Vista-street sewer at a cost of about \$65. Adopted. POLICE SURGEON'S SALARY.

POLICE SURGEON'S SALARY.

A communication from the Police Commission recommended that the salary of the police surgeon be raised from \$75 to \$100 per month. Adopted. The ordinance making the change was then presented.

Councilman Nickell moved to amend the ordinance so that it should make it the duty of the surgeon to give free attendance to the members of the police force injured when on duty.

Councilman Innes wanted to change the ordinance so as to provide that the surgeon should attend all employees of the city.

Councilman Campbell said there was no need of cumbering up the ordinance in that fashion, and President Teed said such a thing was absurd.

Dr. MacGowan, who was now present, was heard. He said the monthly appropriation for drugs for the receiving hospital was insufficient and should be increased.

A vote being taken on the amend-

pital was insufficient and should be increased.

A vote being taken on the amendment the same was lost, and Councilman Nickell moved to amend so that the surgeon should attend all sick or wounded members of the police department, while on duty. Councilman Innes moved to further amend by adding the members of the fire department.

The ordinance was adopted in that form.

CARTER H. HARRISON.

Sketch of the Dead Mayor and Politician, by a Chicago Man. Specially Contributed to The Times.

The cowardly assassination of Carter H. Harrison in Chicago has sent a hrill of consternation and horror thrill of consternation and throughout the entire country. men were so widely known as he—and the fact and manner of his taking off was the sole topic of conversation in the lobbies of the hotels and on the

street corners on Sunday.

While something of a demagogue and with something of the actor in his make-up, Carter Harrison was a strkmake-up, Carter Harrison was a stritt-ingly picturesque personality, and in his freedom from conventionality and his personal and political auda-city he was a fitting type of the men who have built up that peerless city of the great Northwest, which he so long represented as chief magistrate, and his untimely death will be sin-cerely mourned

cerely mourned.

Coming into power on a tidal wave of popular indignation at the congested state of business, owing to a puritanical enforcement of stringent antiliquor laws by the then chief of police, Elmer Washburn, he went to the other extreme. Saloons were run wide open day and night; gambling was winked at, and Chicago, being a cosmopolitan city, with the native element largely in the minority, the different nationalities making up the population were allowed full license to celebrate their national holidays. On St. Patrick's day the Irish societies were permitted to "fight-like divils for conciliation and hate each other for the love of God," and Carter Harrison was an honored guest at the banouet. The Germans could sing the "Wacht Am Rhine," and the Frenchmen the "Marselllaise" as long as they did not come to loggerheads, and by these methods confidence was restored and Chicago commenced to boom again, but in the end it was disastrous. The Anarchists, taking advantage of this leniency, proceeded to openly advocate murder and assassination. Processions, in which the red flag of anarchy was displayed, while the starry flag of the cerely mourned.

Coming into power on a tidal wave of

leniency, proceeded to openly advocate murder and assassination. Processions, in which the red flag of anarchy was displayed, while the starry flag of the country was borne union down, were permitted, and the whole thing culminated in the Haymarket massacre of the police.

I saw Carter Harrison present at that meeting, half an hour before the bomb exploded. He reined up his horse within a few feet of me. With his broad-brimmed, felt hat, pulled well over his bushy and beetling brow, he sat listening, with a thoughtful expression on his face, to the wild and fervid oratory of the Englishman, Sam Fellden, and then quietly rode off.

But whether or not the license of his administration led up to the outbreak, there can be no question about the energy with which he caught and throttled the monster Anarchy when it did show its head, and stamp it out forever in Chicago.

In politics Harrison was seen at his beet. His personal magnetism, his ready wit and his wonderful gift of speech, could sway an audience as few

tifully and artistically, as sne always sings, the first receiving a hearty encore.

The duo and the trio for flutes, the solo for guitar, and the quartette for violins, 'cello and plano were exceedingly fine, the guitar solo being so striking and original that an enthusiastic recall was insisted upon.

When the violin solo, "Tannhauser," was played, as Adolph Lowinsky played it last night, accompanied by Mrs. Lowinsky, it is little wonder that the audience sat as if spell-bound. It is safe to say that "Tannhauser," never had a more exquisite rendering in Los Angeles. In response to an encore that made the house rnig, Mr. Lowinsky played Raff's "Cavatina," with a sweetness and expression that made a second encore seen imminent.

The concert was a most assured success of the season.

The next entertainment in the course will be an evening of readings by Miss Addle L. Murphy, assisted by Mrs. Clapp of Pasadena and other musicians.

Sherman Smith Sues P. F. Ebert.

Claims That His Character Was Defamed.

Continuance Ordered in the Sciscich WIII Case.

Edward Fry is Acquitted of the Charge of Burglary-The Usual Monday Morning Divorce Business-Court Notes-New Suits.

Sherman Smith resents the action taken by P. F. Ebert in holding him up before the City Council as an insolvent, and fixes the amount of damage sustained at the round sum of \$10,000.

Just what was the cause of all the trouble is not distinctly known, but at all events at a recent meeting of the Council a communication from Ebert was read, in which it was stated that the writer understood that Smith was one of the sureties on the bond of City Auditor Teale, and that the former was insolvent. It seems that the statement was not proven or established by the facts, and Smith was very much angered at Ebert's "previousness." Yesterday he filed a complaint with the County Clerk couched in the following

MINES AND MINING.

Encouraging Reports from the Victor Region.

The Desert and Mountains Full of Men Look ing for the Shining Metal-Much Being Done.

VICTOR, Oct. 28 .- This is the season of the year which brings out the pros pector. Assessment work also has to be done, and the desert and mountains are full of men looking for the shin-ing metal. There is on this side of the mountain more mines being worked than for the past twenty years.

THE COXES RANCH MINES. The Coxes ranch mines have been bonded by Chicago capitalists on the recommendation of their expert. De Lano. Mr. Lane's freight teams are keeping the ten-stamp mill at Victor running steadily from ore from these gold mines. The bonders pay a royalty to the owners, Chappel & Co., of Hesperia, for the right to work the ore. The ore must be of a good grade to stand the freight (\$70) and the lease of the mill with royalty.

THE SIDEWINDER MINE. The Sidewinder mine still continues to open up bodies of ore, the owners being rich men, are only doing develop-

ment work. The mine is opening up satisfactorily. About six men are con-stantly employed. THE ROSE MINE. Mr. Wheeler has been appointed su-perintendent again, and is putting on more men to open up new ground. This mine is owned by a few Riversiders, who think it a better investment than

who think it a better investment than oranges.

A few Glendora men and Al Watts (one of the original owners of the Rose) have bonded the adjoining claim and are doing considerable work, with not much success as yet, but they expect to strike the ledge of the Rose ere long. A number of other claims are having assessment work done in the district. Big Smith has bonded a gold claim a short distance from the Rose to some of your Angelenos.

He and Finley McLellan were working in some of the old works and they had a lot of waste to take out to get at the point where they wanted to work. the point where they wanted to work. The chute got stopped up with large rocks. Joe, who is somewhat daring, thought he would climb up the chute and loosen the boulders, but by so doing he came near losing his life. In removing the rocks the whole mass commenced moving, covering him with an immense amount of rock. McLellan says that he would not have given 2 cents for his life, but Joe's time had not come yet. McLellan, after two hours' hard work, got him out by cutting in from above and stopping the flow of rock—so Joe is preserved for his numerous lady friends.

HOLCOMB VALLEY GOLD COMPANY. This English company has spent a yast amount of money to open those placers. W. E. Pedley, a mining engineer from over the pond, has had charge of the works for a few years past. This year large dredging works, with a spank new devise for amalgamating, has been put in. The dredger works to perfection, and the amalgamating machine (a huge lot of machinery) works well but for the feeding apparatus. This is now being freighted in, probably just in time to be of no use this season. The mischievously inclined claim it makes no difference, as long as the blasted Englishman puts up the assessment, and the stocks keep up. This English company has spent a

There are several prospects being worked in Rattlesnake Canyon. Mat Morris has a shaft down fifty feet on a ledge about a foot wide, which assays \$100 per ton.

It was reported this week that 125 tons of machinery was on its way from tons of machinery was on its way from Chicago to be put up on the old Gold Mountain properties, the preliminary test being all that could be desired. I think it is not likely that they will start so late in the season, although it is said all the stock has been taken by Doble's friends in the East. There is little doubt but that large works will be put in, either this winter or in the spring.

This morning at 2 o'clock the wagons laden with sacks of walnuts began to arrive at the Santa Fe station, and at, or at the Santa Fe station, and at, or near, 9 o'clock forty were in waiting for their turn of weighing the sacks. Perter's agent did not arrive until about \$3.45\$, and then the slowest and red-tapest kind of work had to be gone through in sampling. examining, weighing, etc. The morning was foggy, raw, and, really, very cold, and the men suffered considerably while waiting the late arrival of the purchasing agent, and the dilatory, slow-coach method of handling walnuts in this country. There were, at the least, sixty men, to say nothing of horses, connected with the walnuts, and Mr. Agent ought to know that their time is valuable. Many of the teamsters and proprietors uttered objurgatory words. Among the proprietors were two clergymen. Surely there must be some quicker way of dispatching walnuts than the method employed before the sacks are placed in the cars.

The forty wagons contained, on the average, thirty sacks of 100 pounds each. Several pounds were weighed, and they ran' thirty-eight nuts to the pound, and this would make those forty wagons bring to one little station in a single day the enormous total of 4,440,000 walnuts! The crop is but little more than half the average crop this year, but the quality certainly is very good. lear, 9 o'clock forty were in waiting

TO MEET HER HUSBAND.

All the Way from Australia to Los Angeles to Get Married.

(San Francisco Call, Oct. 28:) Immigration Commissioner Stradley is a young man and single. One of his duties as an officer of the United States is to see that no one under contract lands on the domain of Uncle Sam. But yes terday a fair young lady got the best of him. She was a pretty blonde, petite and rosy cheeked, and young withal. When Mr. Stradley saw her unattended when Mr. Stradley saw her unattended among the steerage passengers aboard the Monowai he was surprised she was traveling alone. Then he became interested and curious. She seemed so out of place among the steerage passengers that he reached for the vessel's manifest and found that she was Miss Francis Ann Pagares, and was en routeful Loss. cis Ann Pearce, and was en route to Los Angeles. Combination pocket-books and card cases 50c, 75c and \$1. A few elegant qualities in real seal, very cheap. Another new lot of fur capes came in by express yesterday, and they are selling. A week ago today we did not have a fur cape in the house. This insures you a free protection from moths. The prices are most reasonable. Why not come to cloak headquarters for cloaks. You cannot be deceived. Goods will be taken back and money refunded if you feel you have been deceived. We sell more of the reasonable-priced cloaks this season, and when it comes to capes no house can compete. Why not? We make three-fourths of all the capes we sell, and we can make capes and sell them for less than we can buy them; besides we make our capes fuller at the bottom. We really have no competition when it comes to capes. Another new lot of cloths came in today for cape-making. Step upstairs and you will see a large number of ladies at work on capes. That is what we call a real benefit to the laboring element; we give these honest women plenty of work. A nice lot of Children's Cloaks and Capes at prices that create quicker selling. Have you ever considered the small expense we have in selling cloaks? The rent alone is not to exceed onefourth of a regular cloak house, gas light and insurance is less, clerk hire is less. The proprietor does not depend upon his cloak department for his income; it is divided up among a big lot of departments, and this makes our Cloak Department that much less of a burden to carry. Then look at the way we conduct the Cloak Department-one price, plain figures, money refunded upon unsatisfactory purchases; square as the day is long, and we can assure you the Cloak Department is constantly gaining trade. We close every night in the week and in this way secure the good will and best wishes of the laboring element; this saves us from any charge of being antagonistic to labor, and repeated resolutions have been put forth by the labor unions indorsing our position on the labor question. MIDWINTER FAIR.

Southern California is to Have a Building.

To Be an Honor and an Ornament to the State.

Encouraging Reports Presented the Committee.

Every Facility to Be Afforded for Making Proper Exhibit-The Finances are in Very Good Shape for the Work.

It is decided that Southern California shall erect a building at the Midwinter Fair, which is to be an honor and an ornament to the State, a thing of am-ple space and beauty, without extravagance, a fitting crown to the sightly ele gance, a fitting crown to the signity ele-vation on which it will be placed. It is to be hoped that every county of the seven which compose our "South" will fall into line, put a shoulder to the wheel, and force the good work along without break or stop until ulti-mate success—in the shape of a com-plete, and fitting structure—marks the plete, and fitting structure-marks th enterprise and the loyalty of the south-

ern half of the State to the whole.

The meeing of the Midwinter Fair Committee at the Chamber of Commerce yesterday afternoon was one of the most enthusiastic and successful that has yet been held. Five counties were represented, as follows:

Los Angeles—Messrs, J. S. Slauson,

Charles Forman, Charles Silent, T. D.

were represented, as follows:
Los Angeles—Messrs, J. S. Slauson, Charles Forman, Charles Silent, T. D. Stimson and Gov. Sheldon.
Riverside—J. R. Newberry.
San Bernardino—T. S. Ingham.
San Diego—R. H. Young.
Ventura—F. A. Foster.
J. S. Slauson occupied the chair, and C. D. Willard acted as secretary.
Judge Silent, as one of the committee appointed to visit San Francisco and look the grounds over, in order to see what plans should be adopted for furthering the interests of this section, was called upon to report. His report was of great interest, and in every respect flattering in prospects. He represented that the Southern committee was met with the most cordial reception, shown every consideration, and offered the choice of such favorable sites as were at command. Upon one of these sites Mr. Silent dwelt at length and with force. It seemed to him too desirable to let any opportunity pass of securing it. This location is a commanding elevation, in close proximity to and rising beyond the Agricultural building and the Fine Arts building, and forming a part of the main circle. Behind it sweeps a grand ridge of forest, of evergreens and various trees, which have been protected in all their symmetry and beauty. This background is the frame in which, if this site is chosen, the picture which our building is expected to form will be set. Below, a vast depression is overlooked, and this will be completely filled with fountains, flowers, shrubbery and tropical plants, and lighted at night by electricity. It is directly opposite the main entrance, and the foundation of a building placed on this elevation will be on a level with the eaves of the Agricultural building.

Mr. Silent further stated that in placing a building placed on this elevation will be on a level with the eaves of the Agricultural building.

Mr. Silent further stated that in placing a building here, there would require decoration, while the remaining sides would need but rough finish.

The park commissioners have agreed that as many trees as desired may

Inquiry was made by Mr. Forman as of the size of pepper trees to be planted. Mr. Silent advised sending little and ig, although he considered those of our to five inches most desirable. Mr. Young inquired as to sewerage. The answer was that sewerage, lights, ater and police supervision are to be irnished free. The grading, however, fill have to be done, and the approaches onstructed. The macadamizing of the opproaches will be done without exense.

A diagram of the location was disayed, and further advantages of this te were pointed out. The elevation is all sides is gentle.

Allusion was also made to the interest a studio here.

on all sides is rentle.

Allusion was also made to the interest which Gov. Markham had displayed in the Southern California undertaking. He came down from Sacramento and met the committee while in San Francisco, and was of great assistance.

The matter of cost of the building was then discussed with spirit and at considerable length, although with the best of feeling. The aim is to erect a structure which shall be handsome, ornamental, in a measure unique, and, at the same time, not call for a needless expenditure of funds. During this discussion, the question of holding our Southern Citrus Fair in San Francisco was also brought up and argued. The opinion seemed to prevail with many that such an exhibit, held there, during the coming important season, might be of vastly more benefit than if held here, where every one knows that we can ratseorainges. The idea is to make everything tell during the next few months, to send our name where it is pretty sure to win us fame.

Another subject broached was that of inviting Fresno, Tulare, Kern and other central counties to join in the Southern exhibit with the wide variety of products in which these localities could make a fine showing. Upon this question opinions differed widely. None doubted the addition in the way of exhibits, but the majority favored maintaining only an exhibition which should be purely Southern Californian.

Upon' motion of Mr. Newberry, Architects Bradbeer and Hunt were invited lorward to present plans and suggestions for suitable buildings, Mr. Bradbeer's proposed structure, were also and a suggestions for suitable buildings, Mr. Bradbeer's proposed structure, were also and suggestions for suitable buildings, Mr. Bradbeer's proposed structure, were also and suggestions for suitable buildings, Mr. Bradbeer's proposed structure, were also and suggestions for suitable buildings, Mr. Bradbeer's proposed structure, were also and suggestions for suitable buildings.

ctos Bradbeer and Hunt were invited torward to present plans and suggestions for suitable buildings. Mr. Bradbeer's proposed structure was an ornate and apparently costly affair, although he estimated the expense at only about \$10,000. Mr. Hunt's was the same submitted by him at the meeting a fortnight since, and seemed more nearly the idea of the committee.

Mr. Silent recommended that an architect be selected and sent to San Francisco to look the grounds over, as only by this means could he conform the building to the grounds. He could then present a perfected plan, after which bids could be advertised.

Gov. Sheldon suggested that as two counties were not represented it might be well to wait until a future meeting before taking definite action, but this was opposed by Mr. Newberry, who moved the election of permanent officers for the organization, and immediate action.

for the organization, and immediate action.

As all the counties, with the exception of Los Angeles, had elected their executive committee, a brief recess was taken, during which this necessary measure was undergone by the tardy tounty, the committee named being Messrs. Forman, Silent, Stimson and Siauson. The entire body then went into executive session and organized with J. S. Slauson as permanent chairman and C. D. Willard as temporary tecretary. Messrs. Slauson, Silent and Willard were empowered to select a permanent secretary and treasurer.

The plant of Sommer P. Hunt, architect, was adopted, subject to such modifications as the executive committee may hereafter desire. Mr. Hunt was

instructed to proceed at once to San Francisco, look the premises over, and report as soon as practicable. The matter of railroad transportation for members of the Executive Commit-tee and others was referred to Messrs. Silent, Slauson and Young, who will in-vestigate and report at the next meet-ing.

The announcement, strengthened by The announcement, strengthened by the reading of letters, from Santa Barbara and Orange counities, to the effect that those counties declined to go in with the Southern California organization, brought out further earnest discussion. The reports of the visiting committee to those counties was reviewed, and the entire sentiment seemed to be of deep regret that Southern California should not stand as a whole in this important enterprise, instead of separating off into individual factions. Not one present entertained a doubt as to the grand showing which the seven rich counties of the Southmight supply, if working together as a unit. Nearly all believe that these two counties will think better, yet, of this decision, and will soon wheel into line.

this decision, and will soon wheel into line.

Mr. Foster expressed himself as believing that the Santa Barbara people will eventually come in, if they find that the building is to be satisfactory, and one which they approve.

Chairman Slauson having brought up the matter of finances, and the time of paying in moneys for carrying on the work, Mr. Newberry stated that Riverside county was ready to make payment at any time, and Mr. Young announced that he was supplied with a check from San Diego county to meet any indebtedness.

Mr. Forman believed that no contract should be made until the money was in the treasury.

in the treasury.

Mr. Newberry's motion, that at the next meeting each county be prepared to put up half of its assessment, prevailed.

to put up half of its assessment, prevailed.

The meeting adjourned, subject to the call of the chair.

It is expected that Architect Hunt will leave today for San Francisco, to study the location. The design which he presented contemplates a building, the center portion of which is 100 feet square, with a central space sixty feet in diameter, open to the roof, which is about seventy-five feet high, with galleries around, serving as a place for large exhibits and decorations. The design also contemplates wings fifty feet square on two ends, and an open colonnade around the front and sides. The tower of this building will rise to eighty or one hundred feet above the main structure of the Agricultural building.

wighty of the Agricultural building.

It is the intention to build of frame and decorate with plaster and staff, and also to go in for color effects to a considerable extent. This could be easily done with plaster. The style of architecture will be especially typical of the South.

SANTA BARBARA COUNTY. The Floral Carnival-The Catholic Fair-Per-

The Floral Carnival—The Catholic Fair—Personal Mention.

Barbarenos were somewhat surprised to read in Saturday's San Francisco papers that it was thought that a "Flower Carnival" would be held there during the Midwinter Fair, the next paragraph gravely stating that the flowers would have to be shipped from the southern part of the State. San Francisco's well-known disposition to "hog it all" doubtless accounts for this attempt to rob Santa Barbara of the observance of the most charming festival of all the year. The Santa Barbara Floral Festival was, it is true, suggested by one held annually at Nice, but in floral abundance and in richness of purely floral display, it surpassed anything ever before held in that line. Already the Floral Festival Committee is making preparations for the Floral Festival of 1894, and our chizens are eagerly looking forward to the week of flowers, in next April, hopping that by making it more elaborate than ever many Midwinter Fair visitors may be attracted to the shrine of Flora. The chilling winds and cough-breeding fogs of San Francisco would be a poor accompaniment to a Floral Festival, and it is to be hoped that San Francisco will refrain from cough-precuning logs of San Francisco would be a poor accompaniment to a Floral Festival, and it is to be hoped that San Francisco will refrain from her usual exhibition of "the appropriative faculty" and dispense with the projected floral parade, which would at best be a mere bagatelle compared with our four days of flowers and fun.

These business men were appointed at the informal meeting of last Saturday in the Chamber of Commerce rooms, when Mr. Blake first stated his tion, and asked the aid of Los Angeles capital toward completing a ten-mile section of the Nevada Southern Raiload, of which nearly thirty-two miles are already constructed and in opera

Ex-Mayor Hazard, who has taken a great interest in the project, was seen by a reporter last evening, and is very enthusiastic over the benefits that yould accrue to Los Angeles on the completion of this road, which, he says, completion of this road, which, he says, would give this city direct communication with Sait Lake City. As was explained in The Times of the 22d inst., with the completion of this road to its northern destination it can be made to connect with both the Rlo Grande Western and the Union Pacific systems, thus opening up an immense territory to Southern California, and at the same time giving those roads easy same time giving those roads easy ccess to tide-water.

access to tide-water.

"This is an opportunity that should be taken advantage of," said Mr. Hazard. "We have talked and talked and talked about a railroad to Sait Lake City, and now we have a chance to see our expectations realized. Mr. Blake wants \$80,000 to complete a ten-mile ap over the mountains, and offers to ecure the loan by first mortgage gap over the mountains, and offers to secure the loan by first mortgage bonds on the Nevada Southern, a road which is already built in part, and which is doing a paying business. He wants to get out of the New York range of mountains, after which the balance of the road will be plain salling, as it debouches into the valleys of Southern Nevada and Utah. The road will then run straight to the North, through the Dry Lake Valley, for a distance of 100 miles, to the coal fields. Over the desert there are no heavy grades, and all that is required is simply to lay the ties and rails, "Mr. Blake, as I understand it," con-

"Mr. Blake, as I understand it," con-tinued the ex-Mayor, "has been at work on the road, but, as with many other enterprises, the financial strin-gency has made it difficult to proceed further with the means at hand. He has the men at work now and wants this loan to enable the road to continue building. After this ten miles is completed the road will be in such paying condition that its completion to its northern terminus will be a question of but a short time.

condition that its completion to its northern terminus will be a question of but a short time.

"The vast mineral country which this road will drain and which will be thus made tributary to Los Angeles will make this city the greatest on the Coast within ten years. Nature has been most lavish in that section. Salt, borax and nitrates exist in great quantities, and there are gold, copper and lead mines already in operation, which would be reached by this road. Iron and coal in endless quantities exist in Southern Utah, which can be mined at a minimum cost and which would be rought to tide-water by this new avenue. It will be a great thing for Los Angeles to have this line through," concluded Mr. Hazard, "and I am heart and soul in favor of it. Why, we'll have another Pittsburgh here in less than five years and Los Angeles will be the money center of the Pacific Coast."

THE SANTA FE IN CHICAGO. According to the latest report from Chicago the Santa Fe is in some danger of losing its entrance to that city.
The Chicago Herald, of October 26,

The Chicago Herald, of October 26, says:

"The Western Indiana Railroad Company must elevate its tracks or move, the city law department says. It has declared war against the company. Some time ago the officials of the road said they would have to get out of town if they were obliged to elevate their tracks. They can no longer appeal to the law department. Their only salvation is the City Council, which may grant them rights necessary to the holding of their tracks, if they make concessions in the matter of track elevation satisfactory to the alderman and the Mayor. Corporation Counsel Kraus yesterday began legal proceedings in the Circuit Court with a view of removing practically all of the tracks of the Western Indiana Railroad Company within the limits of the city from the public streets. This action takes the form of a suit for the ejectment of the company from Wallace street and Stewart avenue, which is practically the main line of the company, and notice for removal of nearly all the other tracks of the company, including the Belt line, within ten days from date. The suit for ejectment is against the Western Indiana Railroad Company and the lessees of its tracks, including the Following roads: Chicago and Eastern Illinois; Wabash; Chicago and Grand Trunk; Chicago and Erie; Louisville, New Albany and Chicago; Atchison, Topeka and Santa Fe.

"The damages to the corporation counsel has been preparing for just weeks and company and the lessees of its tracks, including the page of the company and the lessees of its tracks, including the following roads: Chicago and Eastern Illinois; Wabash; Chicago and Eastern Illinois; Wabash; Chicago and Eastern Illinois; Page and Energia Louisville, New Albany and Chicago; Atchison, Topeka and Santa Fe.

company's tracks; lawyers have been looking up the records to see by what right the company used any of the public streets. The conclusion has been forced upon the mind of the corporation counsel that almost all of the streets occupied by the company's tracks are used without legal authority. He believes he can make the company take its tracks from nearly all of the streets and that he can, if necessary, remove almost every mile of trackage within the city limits controlled by the Western Indiana company. The effort to do so is begun in the best of faith, and the cyrporation counsel means to leave no stone unturned to accomplish that purpose. He does not talk much of track elevation. He declares he is through with negotiations on that subject. The railroad company has, however, one loopholo of escape, and that the City Council. Should that body become satisfied that the company will do its bidding it has the power to grant to the railroad company concessions which will assure to it future use of the streets it now occupies."

SAN DIEGO'S ROAD. (San Diego Union, Sunday:) "Yester day morning Mayor Carlson was up at daybreak, took the 6:30 a.m. train for naybreak, took the 6:30 a.m. train for the front, inspecting the work done, and paid off the workingmen and grad-ers on the San Diego and Phoenix Rail-road in full to last night. Excellent progress has been made in the con-struction of the road. The graders are now working in the well-known Denari-Mosto vineyard, the house of which now working in the well-known Denari-Mosto vineyard, the house of which having been reached by the roadbed, the line now ends five miles east from Phoenix Junction, and fifteen miles from this city. Work is also being car-ried on completing the straight cut through the San Diego Land and Town Company's fifteen-acre tract by con-tinuing the route of the main line along the side hill. President Carlson reports that the workmen are doing excellent work, showing great faithfulness and interest.

SOUTHERN PACIFIC COAST LINE. SAN FRANCISCO, Oct. 30 .- (By the Associated Press.) Times will be lively from now on until the 1st of May down about San Luis Obispo, where the Southern Pacific Company is extending its road from Santa Margarita. H. E. Huntington said today that the company will prosecute the completion of the work with vigor, it being expected that 2000 men would be given employment in order to finish the work by the time mentioned. Every effort will be made to have the work done by May 1, and, in the event of success, a celebration is to be held in San Luis Obispo in honor of the achievement. From Elwood, the present terminus of the Southern Pacific Northern division, to San Luis Obispo, work will probably be commenced just as soon as that now in hand is completed.

RESTORING SALARIES. CHICAGO, Oct. 30.—(By the Associated Press.) President Miller of the Chicago, Milwaukee and St. Paul road, chicago, animalized and St. Faui road, has issued an order, restoring all salaries affected by the 10 per cent. reduction made about two months since. The immense business done by the road in World's Fair traffic, and the generally improved business situation, is respon-sible for the order.

SCRAP HEAP. E. F. Shearer, manager of Shearer's excursions, which run over the Union Pacific, is v.siting Los Angeles. He will depart for Chicago today.

Managers of Western railways are now congratulating themselves that they have practically passed the period of heavy World's Fair travel without serious accidents.

of heavy World's Fair travel without serious accidents.

A Raymond & Whitcomb excursion will arrive on this morning's Santa Fe overland train. The party is a small one, occupying two cars, and will first go to San Diego from San Bernardino. With the Santa Fe overland train due to arrive at 7:50 this morning will come the private car bearing Mrs. Grant, widow of the great soldier, and the party accompanying her. The party will remain in the city until 2 p.m., and then go to Santa Barbara.

On account of the perilous financial condition of all Western lines, they have entered a binding agreement to maintain freight rates after November 15. All revenues are needed now to keep the wolf from the door. "Binding" railway agreements are always binding until they are broken.

Creditor's Sale!

Since Sheriff Cline sold the stock of goods of the CITY OF PARIS DRY GOODS STORE to Mr. Sheideman, who bought the same in the interest of all attaching creditors, the most Remarkable Sale that has ever been witnessed in Southern California, and in fact the State of California, has followed. From 8 a.m. until 6 p.m every working day, has found the store crowded with anxious buyers. The public is satisfied that the creditors had but one object, to realize CASH, regardless of the cost value of goods. Money is what they wanted, in consequence thereof the people have purchased goods at prices that no other house in the State would or could afford to make. The plain and simple proposition is that the City of Paris Dry Goods Store has been

Financially Wrecked

And the "purchasing creditors" resorted to the only one way of realizing—that is to let the public have the goods at the Sheriff's prices—and in this way clean up the accounts. This sale will and must continue until all the goods are sold, and as has been repeatedly stated AT ANY PRICE. The manager has full authority and will continue to mark down, cut and slash away, not as against any firm or individual in this city, but simply to clear up the wreck and realize whatever cash that it will produce, this is the story in a nutshell.

Beginning today the SILK DEPARTMENT will be handled without gloves. Every

lady in Los Angeles is kindly requested to look through the Silk Department of the City of Paris; it contains the latest novelties and finest makes of Silk Velvets and Plushes that can be found in any store on the Pacific Coast, excepting none. The stock is complete in all the new shades and fancy weaves, and will be sold at prices that will justify anybody in purchasing silk, velvet or plush for dresses or trimmings.

About One-half Price

Is what is named, not for one, two, or even a half dozen different articles, but for EVERY article in the department, which, by the way, is the largest and most complete in this city, the creditors proposing to realize cash and clean out the establishment. Will not and cannot resort to the threadbare device of making LEADERS of a few articles, as some business men occasionally do in order to attract a little trade. But every article in this immense establishment goes, you have the choice, now avail yourselves of the opportunity.

THREE BILLIONS OF CIGARETTES That's the Number Consumed in the United

The annual report of the Commis-sloner of Internal Revenue shows that 3,000,000,000 cigarettes have been made in this country during the fiscal year just ended, says the Commercial Ga-zette. This is an average of about fifty to each individual. The growth in the production of cigarettes goes on year by year. A decade ago the number manufactured was far below a billion. by year. A decade ago the number manufactured was far below a billion. Like pretty much evrything else that is done in this country, the manufacturing facilities are greatly increased, by the adoption of machinery. Within the last few years some wonderful machines for making cigarettes have been invented. One pattern will turn them out at an average rate of 275 a minute. The patents on these devices are vastly valuable. One style, which may be well described for the sake of illustration, passes along an endless strip of paper, the width of which is just the length of a cigarette. The tobacco is fed from above into little scales. They drop as soon as they have received the precise quantity required, emptying their contents upon the strip of paper, which is rolled, chopped off with knives and glued neatly, all in an instant of time; of course, a great many simultaneously, the machine counting them and conveying them into the packages, which are likewise wrapped around them by mechanical contrivances, unaided by hands. The Russians and Turks do not use any machinery for the manufacture of cigarettes, the work all being done by kand. French cigarettes are particularly mild, because the tobacco is steeped in water to make it so.

The details of the manufacture of cigarettes are kept, to a greater or less degree, a secret by the manufacturer, each of whom has his own particular combination of tobaccos. None of the brands on the market is composed of one kind only. The recipe is not civulged outside of the firm. But this is not all. The original mixture is merely a basis for artificial flavoring. To begin with, various essential oils are added. The list of these includes rose geranium, vanilla, bean, tonka bean and licorice root. These ingrediets are added after the tobacco has been chopped into shreds, in readiness to be rolled into cigarettes. Finally, the particular drug chosen, in the shape of liquid solution, is sprayed on the material with an atomizer. The quantity employed is very carefully judged, so Like pretty much evrything else that

fleular drug chosen, in the snape of fleular oblution, is sprayed on the material with an atomizer. The quantity employed is very carefully judged, so many drops being allowed for each cigarette. There is no doubt that opium, valerian and cannabias indica are utilized to the largest extent. THREE PHASES OF A ROYAL LIFE. Kinglet Umtassa of South Africa Enjoys a Continual "Jag."

(South Africa:) I have just profited by a holiday to pay a visit to the Chief Umtassa, or rather the Kinglet Umtassa, as the official dispatches call him. The country belongs to him, and the Chartered Company gives him a yearly present of \$100, and this \$100 and this present were just due. It is almost impossible to get a glimpse of Umtassa, partly because he is such an important person—in his own eyes—but chiefly be-cause his life has only three phases— going to drink, drinking, and being drunk indeed.

cause his life has only three phases—going to drink, drinking, and being drunk indeed.

We were shown info a "reception hut," into which we crawled almost upon our hands and knees, and we seated ourselves on mats, prepared to wait an indefinite time—for the "chie" of a native chief, like that of a smart dentist, is to keep one waiting as long as possible. After about half an hour we began to clamor, and then we left the hut and began to wander about the kraal—a proceeding which the natives greatly objected to—and before we had gone far an induna came to say that Umtassa was coming, and had sent a present of Kaffir beer. So we scrambled back and sat outside the stuffy hut and waited.

At last a sort of procession came winding down among the rocks, some of the natives wearing a snuffbox and a catskin, others draped in a blanket a la Julius Caesar, but none of them carrying any sort of weapon, with the exception of a big native, who carried Umtassa's knobkerrie and his battle ax. After this usher of the Black Rod came Umtassa, draped in a blue and white toga, with a blue and white cap on his head.

Much to my surprise he turned out to be a very important-looking personage. In spite of his excessive dirt he decidedly possesses what is called le grand air, which I take to be produced by a complete satisfaction with one's surroundings, and not a little contents.

duced by a complete satisfaction with one's surroundings, and not a little con-tempt for the rest of the world. Well, our friend Umtassa gave each of us a grimy hand to shake, and really one might have planted a mealie field un-der each of his hands. He then sat down on his mat, with all his people grouped around him, and his Induna told our interpreter that he might speak. Thereupon a good deal of busi-ness was transacted.

Wales's Most Popular Daughter.

Wales's Most Popular Daughter.

Of the three daughters of the Frince of Wales by far the eleverest and the one possessed of the largest amount of savoir faire is Princess Victoria (now 25.) who has long been her mother's right hand and who carries on half of her correspondence, and supplies by the quickest and shrewdest tact her mother's want of hearing. She is hearty, folly, merry, and full of aplomb, and there is no doubt that if she and her younger sister were suddenly thrown on, their own resources the two young ladies would soon make their way in the world, the elder of the two leading. The Duchess of Fife, on the contrary, is of a sentimental and dreamy character, and more fond of novel reading than of the practical work of housekeeping. All three of the Wales girls are very like the type of the royal house of Guelph, especially their eyes and foreheads, and the two youngest are very similar in character and disposition also. The Duchess of Fife cares nothing for display and state, and would be quite content to be free from the etiquette of a court.

Danger in the Barber's Chair.

A warning against the dangers of the barber's chair has been raised by Dr. Blaschko of Berlin in a discourse, from which quotations are made by the British Medical Journal. The warning is given on account of the existence in Berlin of a malady known as dermatomycosis tonsurans, the infection of which may be communicated by the barber's shaving brush, by the lather, the razor, the sponge, the towel, the powder puff, the comb, or the brush. After making a special study of this Berlin epidemic, Dr. Blaschko takes up some of the other maladies which may be contracted in barbers' shops there, among which are herpes tonsurans, impatigo, contagiosa, trichorrhexis nodosa, acme varioliformis, impetiginous eczema, alopecia areata, tuberculosis, and cholera. This list of maladies is long and alarming, but Dr. Blaschko alleges that the man who is shaven in Berlin may contract any one of them, either directly from the barber or indirectly from his instruments and appliances. The Berlin medicos are familiar with these maladies, which, in some cases, prove fatal. The British Medical Journal, commenting upon the facts mentioned by Dr. Blaschko, says: "It is undoubtedly true that there is dancases, prove tatal. How the Vanderbilts Entertain.

(New York Herald:) There is a curlous difference in the way in which the brious members of the Vanderbilt family elect to entertain the world at large. Mrs. Fred gives a succession of house parties, but neither she nor her hand, delight in most gorgeous of entertainments or dinners for a chosen few, but never has house parties of any size at Newport. At Oakdale, W. K. Vanderbilt's country seat on Long Island, they entertain in that way, but nowhere else. Mr. and Mrs. Cornelius Vanderbilt, it is evident, intend when their period of mourning is past to launch into the social world very extensively. Miss Vanderbilt, who has not yet made her formal debut, is a great favorite, and has any number of friends among the girls as well as the men. George Vanderbilt delights in informal affairs of all kinds, and is voted the guest par excellence for a picnic or any sort of jolly spree.

The meeting then adjourned. SIDE LIGHTS.

The casual observer cannot fail to notice features of especial importance notice features of especial importance in the above minutes. The interest that is being manifested in street improvements is really remarkable. Petitions continue to come in from property-owners in all sections of town, asking that strets be graded, curbed, guttered and lined with cement sidewalks, and the Council has never been slow to comply with such requests. The action taken with regard to South Fair Oaks avenue is of great importance, and to Trustee Cox must be given the credit of taking the initiative in this movement. This thorough fare is one of he most-traveled in town, and its present condition is deplorable. When properly graded and guttered, as contemplated, the improvement will be most noticeable, and will be appreciated by many non-residents as well as by the residents of Pasadena.

If the contract is today awarded to Mr. Taylor, to pave the Colorado-street intersections, Mr. Fairchild will doubtless find solace for his cares in the fact that on Monday he handed in the lowest bid for paving Aliso street, Los Angeles, a \$60,000 job.

The trustees showed their appreciation of Mr. Arthur's valuable services in the capacity of City Attorney by raising his salary from \$75\$ to \$100 per month. Mr. Arthur has never yet led the Council astray, nor has he lost any suit in which the city has been interested. Furthermore, during his administration there have been no demands on the city for outside or extra attorneys' fees, which in itself is a particularly novel and noteworthy fact, as all acquainted with the municipal records will testify. in the above minutes. Stormy Meeting of the Board of Supervisors.

A Difference of Opinion as to the Improv ment of the River Bed-Encourag-Chicago.

The meeting of the Board of Super visors Monday morning was a rather stormy one. For some time there has some dissension between the County Surveyor, who has charge of the river improvement work, and the member of the Board of Supervisors from Garden Grove, as to the kind of protection that should be given the banks of the river adjoining the Fifthstreet bridge. Mr. Hawkins was in favor of building a wing dam just above the bridge, in order to more ef-fectually, as he thought, protest the fectually, as he thought, protest the Fifth-street grade and approaches to the bridge, but Mr. Finley thought it was best to follow the course of the river, and thereby carry out his plans as originally made. A number of spectators were before the board, and participated in the discussion, giving their views of the work as they thought it should be done. Mr. Hawkins admitted that he wanted to control the work in his district, because he thought he knew more about it than Mr. Finley did, whereupon Surveyor Finley charged the his district, because he thought he knew more about it than Mr. Finley did, whereupon Surveyor Finley charged the supervisor with trying to prejudice the people against the work that he was doing. He said that Mr. Hawkins had brought people to the ground and had told all sorts of stories about changes in the river bed, and he had said that if he had known that he would not have had control of that work he would not have voted to appropriate a cent for the improvement of the river. This accusation Mr. Hawkins did not deay, and so the discussion proceeded, many others participating therein. After several hours had been consumed in hearfactory hands have traded a great deal with Pomona merchants. It is stated that just as soon as the electric road between this place and Claremont is completed, that a road to Chino will be the next thing in order, unless the Southern Pacific should conclude to finish its proposed road to the "sugar" town, and thence to Riverside. The sale which takes place today will be largely attended from this city, and it is expected that a large amount of land will be disposed of. WALKED OUT OF JAIL.

from Behind the Bars. There was one less Chinaman in the County Jail last night than there was yesterday morning, and the fortunate one who gained the free air was not indebted to the regular process of law for his release, either. The manner of his escape seemed the greater mystery when it was found that no loopholes or other apertures were available, everything being in the proper place and

There was but one conclusion, disagreeable as it might seem to the ers, to come to, and that was that the wiley heathen had taken advantage of the opening of the front door to admit visitors and hied himself unnoticed out

on Friday six Chinamen were brought in from Cahuenga for trial as non-registered laborers. Yesterday when a deputy marshal came to the jail to take the celestials down to the United States Court, but five could be found; the sixth and marke his escape, somehow. The had made his escape somehow. The jail attachees were at first inclined to believe that the fellow was hiding about the place somewhere, but a search proved the falsity of this

proved the laisity of this opinion.

Jailor Macy is usually very cautious, and although he allows many of the better-natured prisoners the freedom of the corritors, he is ever watchful and gnarded against possible surprise or escape.

In view of this fact it seems certain that the negligence of some one was responsible for the Chinaman's successful reak. It is hardly considered possible that a man on duty should open the front door and stand by it while a pris-oner deliberately walked out without being guilty of extreme carelessness or lack of experience.

ASSOCIATED CHARITIES.

Meeting to Effect an Organization This After-

The committee having in charge the organization of the Associated Charities, or a central board of relief, will meet this (Tuesday) afternoon at 2 o'clock at Pythian Hall, No. 1181/ South Spring street, to consumnate a plan of organization. It is earnestly hoped that all who have been invited to attend this meeting will give it their earnest attention and support. This is not the duty of any one society or of one class, but of all citizens interested in the wellfare of the city and of

That there is much good being done, as also has been done in the past is true, but it is as nothing in comparison to the hard work expended in its accomplishment. The way the charity is being doled out under present conditions is like pouring water through a tions is like pouring water through a sieve, being with few exceptions no permanent benefit or very little real good at all. Let all of those who have signified their interest and willingness be prompt in their attendance today.

HER MAJESTY CORS

ISS HELEN MAHON, the expert fitter sent to us by Her Majesty Corset Company, leaves us next week. Before departing she would be pleased to see those ladies, who have not, as yet, called on her, to explain to them the merits of this celebrated make. During her stay, so far Miss Mahon has been kept very busy. She has demonstrated the superiority of Her Majesty Corset above all others, and in a number of cases has sold corsets to ladies who have never worn anything but corsets that have been made to order. Miss Mahon will be pleased to fit all ladies who call on her, and in no case is any one compelled to buy. We simply wish to have you come in and examine these truly wonderful corsets.
